Mrs Effie M only

Arrived home safe
but very tired. I sent you
a telegram but never did
receive an answer. You could
have let me know some-
thing because I was depending
on you after the way you talked
before I left. I was so sure
that you was going to do that
for me that I had strange things
and waiting for the money. You
knew I can't help from feeling
bad about something like that,
and you let me down at
a time like this. I got
to stay here and worked

until I can pay this bill
out. I cant make over a light
dollar a week and I got to
live out of that. I was planning
on going to Dayton where my
brother is living. But I guess
I am here for at least four
months. It will be about
a month before I can
work on account of my legs.

please let me know
about my Insurance.
because I need all the
money I can get right now.

Yours
